

TERRA

For the discriminating cyclist, a handcrafted, silver brazed frameset with proper geometry for commuting, touring, and recreational riding.

CONSTRUCTION – Reynolds 531 double butted tubing is joined with Henry James 'Custom Series' lugs, bracket shell, and crown. These are precision investment castings, accurately cast to silver brazing tolerance. Caps are used for seatcluster. Shimano road dropouts are standard.

BRAZED-ON FEATURES – Stainless steel brake cable guides on top tube; bottle cage fittings on top and under down tube; Campagnolo down tube shift boss; derailleur cable guides on shell; rear gear stop; chain hanger; eyelets on front and rear dropouts and seatstays; fender mounting boss in chainstay bridge.

FINISH – All CPFD framesets are meticulously hand filed, then finished at Cyclart®. Primer, enamel color coats, and clear top coat are baked to insure a deep, durable finish. Two-tone ink transfer decals are sealed under the clear coat.

SIZES AVAILABLE – (in cm. increments) 46 - 64, 68.

CUSTOM OPTIONS – A large variety of custom options are available.

TWO MODELS AVAILABLE

Touring

Wheelbase 39.5 - 40.5"
Chainstay length 16.75"
Fork rake 1.75 - 2"

Road

Wheelbase 38.5 - 39.5"
Chainstay length 16.5"
Fork rake 1.5 - 1.75"

Road framesets come with recessed brake fittings, clearance for compact brakes, and 700c wheels. Campagnolo short road dropouts and single bottle cage fittings are standard.

TIERRA II – A high quality, handcrafted frameset at an affordable price. Same sizes and braze-ons as the Tierra in road and touring designs. Columbus SL or SP tubing is joined with Henry James lugs, E-O shell, and Cinelli MC crown. Finish is Dupont Imron®. Many custom options are available.
